PMDAYS.EU

What is PM Baltic Days?

Baltic PM Days is an annual conference organized by Baltic Project Management Associations. During the past few years this event has become one of the biggest conference for project business and management. The conference has now been held annually for over a five years.

The event is currently regarded as one of the most considerable venues for project professionals, corporations and the public sector in the projects field, regardless of the line of business. During the conference, the latest information on projects and bestpractices are exchanged.

VISITOR TARGET GROUPS

- Corporate management of project business operations / upper and middle management
- PMO Directors and Leaders, Portfolio Managers, Program Managers
- Project Managers, Project Experts, Project Professionals

Why is Baltic PM Days held?

The utilization of projects is a constantly renewable method of operation, regardless of the line of business. Project have gained an increasingly more substantial role in all fields irrespective of tasks and duties. For many corporations, project management is one of the most important tool for maintaining and improving national and international competitiveness. The world of projects and its challenges are expanding. Baltic PM Days strives to meet these challenges year after year by organizing a two-day conference presenting the latest solutions, models, methods and tools in order to facilitate the projects professionals in their daily work.

TWO DAYS PROGRAMME INCLUDES:

- Three Keynote Presentations
- 8 Half Day Seminars
- Over 20 international professional speakers
- Project Cocktail
- Networking
- Knowledge sharing
- Best practices
